Naval Facilities Engineering Command Pacific awarded a \$41.16 million firm-fixed price contract to Contract Watts Inc., of McLean, Virginia, for upgrades to the sewer system at Naval Base Guam.

The work to be performed provides for replacement, rehabilitation and upgrade of sewage collection systems throughout the Naval base and outlying areas to include Nimitz Hill, Naval Hospital, Polaris Point, Ordnance Annex and Apra Palms Housing, the Navy announced in a news release.

"U.S. Naval Base Guam is pleased with the announcement of this contract," said Capt. Hans Sholley, U.S. Naval Base Guam commanding officer. "The work that will be done will greatly improve our facilities, which contributes to improved quality of life for our sailors and family members."

Work is expected to be completed by January 2020, the news release stated.
