Companies Encouraged to Utilize the American Job Center to Host Job Fairs
Citadel Pacific Offers Employment to more than Half of Interested Applicants at Recent Job Fair

Hagåtña, Guam - As part of the Leon Guerrero-Tenorio’s Administration's ongoing efforts to bolster employment-related programs to the community, the Guam Department of Labor (GDOL) is expanding its services to local employers through the availability of the American Job Center (AJC) and its staff for training opportunities and industry-specific job fairs.

GDOL held a successful job fair in partnership with Citadel Pacific, IP&E, and IT&E on Friday, October 7 at the AJC Training Room. GDOL provided the local company with the space, internet access, staff, and other resources. During the job fair, close to 40 job seekers attended with 22 being offered positions.

“We would like to put a call out to other businesses to utilize our resources at the AJC, which includes training, video conferencing, and hosting job fairs. GDOL also has dedicated staff with experience in planning and executing a successful job fair, which can also be held at the company’s place of business. If your organization is planning to hire, we can assist,” said David Dell’Isola, GDOL Director. “We are here to help.”

“GDOL has always been a great partner in our efforts to fill positions in our company. We are grateful to the staff at GDOL, who assisted us in planning and executing this job fair. We look forward to the continued partnership with GDOL in obtaining quality hires for all our OpCos.,” said Citadel Pacific Recruitment Specialist Camarin Cabral, SHRM-CP.

For more information on resources available through the AJC or to schedule a company- or industry-specific job fair, please call 671-475-7000/1 or visit the AJC on the 3rd Floor of the GCIC Building, 414 West Soledad Ave, Hagåtña.
